Subject Index to Volume 22

ACTH

- effect of etomidate, 281
- hypersecretion and naloxone, 273
- in Cushing's, 479
- response to ovine CRF in primary and secondary adrenal failure, 761
- secretion by pituitary corticotrophic tumours, effect of nivalzol, 631

Acromegaly

- glucose tolerance and insulin after surgery, 531
- genetic glucose intolerance, 817
- and ergoline derivative, 189

Adrenal failure

- and responses of ovine CRF, 761

Adrenocorticotrophin

- deficiency and empty sella in hypothyroidism, 771

Adult-onset diabetes

- dopaminergic activity in, 75

Aggressive behaviour in two boys, 469

Albumin

- new and distinctive variant, 521

Aldosterone

- unresponsive to angiotensin II, in dexamethasone suppressible hyperaldosteronism, 777

Aminoglutethimide, as aromatase inhibitor in breast cancer, 219

Amiodarone

- and thyroid hormone, 249

Angiotensin

- and CRF, 623

Arginine vasopressin

- in menstrual cycle, 37

Aromatase

- and aminoglutethimide, 219

Atropine

- inhibition of GH secretion, 497

Bioactivity and immunoreactivity of prolactin, 241

Bombesin-like peptide

- causes Cushing's syndrome, 91

Bone metabolism

- in acute parathyroid crisis, 787

Bone

- Paget's disease and vitamin D, 559

Breast cancer

- aminoglutethimide in, 219

Bromocriptine

- in acromegaly, and GH and somatomedin C, 209
- shrinks prolactinoma, 573
- treatment for prolactinoma, 65

Buserelin

- and precocious puberty, 795

CRF

- angiotensin and vasopressin, 623

CU 32-085, an ergoline derivative, in acromegaly, 189

Calcitonin

- effect on gastrointestinal regulatory peptides, 655

Calcium

- renal handling in familial hypocalciuric hypercalcaemia, 103

Caloric deprivation and thyroid hormones, 1

Cancer

- aminoglutethimide in breast, 219

Chemical hyperthyroidism, 693

Childhood-onset diabetes

- dopaminergic activity in, 75

Cholinergic blockade

- effect on GH and prolactin, 733

Cigarettes and goitre, 287

Circadian rhythms

- hormones in microprolactinoma, 265

Computed tomography

- pituitary fossa in primary hypothyroidism, effect of thyroxine, 617

Congenital 11 $\beta$ -hydroxysteroid dehydrogenase deficiency and juvenile hypertension, 701

Corpus lute-ectomy in premenstrual syndrome, 723

Corticosteroids, effect of etomidate, 281

Corticotrophic chromophobe adenoma

- and Cushing's disease, 147

Corticotrophin

- response to insulin-induced hypoglycaemia after sodium valproate, 639

Cortisol

- responses to ovine CRF in primary and secondary adrenal failure, 761
- circadian rhythms, 265
- response to insulin-induced hypoglycaemia after sodium valproate, 639

Cushing's disease

- and ectopic ACTH, 479
- from corticotrophic chromophobe adenoma, 147
- pituitary after megavoltage therapy, 169

Cytoreceptor

- and competitive binding protein assays for 1,25 dihydroxyvitamin D, 597

Cytotoxicity

- and methimazole, 43

Desogestrel

- and hirsutism, 29

- Dexamethasone-suppressible hyperaldosteronism  
aldosterone unresponsiveness to angiotensin II  
777
- Diabetes  
dopaminergic activity differs in, 75
- 1,25-Dihydroxyvitamin D  
and magnesium in hypocalcaemia, 807  
estimation without HPLC, with cytochrome and  
competitive protein binding assay, 597
- 5 $\beta$ -Dihydroaldosterone 123
- Dopamine agonist and pituitary tumours, 678
- Dopaminergic activity  
in diabetes, 75
- Early puberty, 469
- Ectopic ACTH  
in Cushing's, 479
- Endocrine changes  
premenarcheal, 753
- Endogenous opioids  
and hypoglycaemia, 49
- Ergoline derivative  
and acromegaly, 189
- Essential hypernatraemia  
and resetting of the osmostat, 545
- Ethinyl oestradiol  
and hirsutism, 29
- Etomidate  
effect on corticosteroids and ACTH, 281
- Familial hypocalciuric hypercalcaemia  
renal handling of Ca, Mg and PO<sub>4</sub>, 103
- Fenfluramine-induced prolactin  
and naloxone, 539
- Follicular phase  
prolonged after hysterectomy and corpus lute-  
ectomy in premenstrual syndrome, 723
- Food  
stimulates GRF, 337
- Fusaric acid  
and pheochromocytoma, 437
- GH  
response to insulin-induced hypoglycaemia after  
sodium valproate, 639  
secretion, inhibited by atropine, 497  
and bromocriptine in acromegaly, 201  
effect after injections of GRF, 645  
effect of cholinergic blockade, 733  
pulsatile release in induced puberty, 117
- GRF  
stimulated by food, 337  
affect on GH after injections, 645
- Galactorrhoea  
prolactin secretion in, 661
- Gastrointestinal regulatory peptides, effect of calci-  
tonin, 655
- Genetic glucose intolerance in acromegaly, 817
- Glucose  
genetic intolerance in acromegaly, 817  
metabolism and vasopressin, 463  
tolerance in acromegaly after transsphenoidal  
surgery, 531
- Goitre and cigarettes, 287
- Gonadotrophin-secreting pituitary tumour, 43
- Gonadotrophins  
after hysterectomy and corpus lute-ectomy in  
premenstrual syndrome, 723
- Graves' disease  
T-cells, 155  
effect of sodium iodate and iodide, 489
- Hirsutism  
treatment, 29
- Hormone profiles  
to assess ovulation, 739
- Hydroxysteroid dehydrogenase deficiency  
congenital, 701
- 25-Hydroxyvitamin D  
and magnesium in hypocalcaemia, 807
- Hypernatraemia  
and resetting of the osmostat, 545
- Hyperprolactinaemia  
mesulergine and pergolide in, 611
- Hyperthyroidism  
and impalpable thyroid, 583  
and iopanoic acid, 503  
thyroxine-binding globulin in, 249
- Hyperthyroxinaemia  
caused by new albumin variant, 521
- Hypocalcaemia  
and magnesium, 807
- Hypoglycaemia  
and endogenous opioids, 49
- Hypogonadism  
and testosterone replacement, 713
- Hypothyroidism  
end-organ response to thyroxine therapy, 83  
thyroxine-binding globulin, 249
- Hysterectomy  
in premenstrual syndrome, 723
- Immune system  
proopiomelanocortin-derived peptides, 823
- Immunoprecipitation  
of TSH-TSH receptor complexes, 511
- Immunoreactivity  
and bioactivity of prolactin, 241
- Insulin  
in acromegaly after transsphenoidal surgery, 531

- Insulin-induced hypoglycaemia  
  response of hormones to cholinergic blockade, 733  
  hormone responses after sodium valproate, 639
- Intracranial metastases  
  and prolactin secreting pituitary tumour, 17
- Intranasal TRH  
  stimulates TSH, 567
